 Primary Examiner, Art Unit 2624

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Amend claims 1, 20 and 21 because preamble has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. Examiner have asked applicant to amend the claim 1 line 2 delete "using" by add "with" in the preamble of claim and also amend in the body of the claim 1 line 5 add " shape information in the form of" followed by the claim limitation. Similarly claim 20 and 21 has been amended by doing the examiner amendment.
